

This is to certify that
BSB Structural

Flemington Court, Craigneuk Street, Motherwell, ML1 2NT, UK

Has been assessed
by George Rees for IT Governance Ltd
against the Cyber Essentials Scheme Test Specification

Level of certification: Cyber Essentials

Scope: Internet facing infrastructure for BSB Structural. Including firewalls, routers, end user devices and hosted systems located at United Kingdom

Certification date: March 7th, 2019

Recommended re-assessment date: **March 6th, 2020**

Certificate no.: 9458439019994193

This Certificate confirms that the organisation named was assessed against the Cyber Essentials Requirements dated June 2014, and at the time of testing, the organisation's ICT defences were assessed to meet the Requirements. Cyber Essentials Certification indicates that the organisation has implemented a sensible baseline of organisational cyber security only, and implies no guarantee of effective defence against commodity cyber attacks circumventing this baseline. Organisations are recommended to define and understand the risks to their organisation and take all appropriate action to mitigate or reduce any issues, which may require a greater degree of rigour or technical investment than is required for Cyber Essentials alone.
